

Tech E&O

Coverage highlights and key advantages of At-Bay

At-Bay offers up to \$5 million in limits to businesses up to \$1 billion in revenue for primary and excess Tech E&O coverage. Our policies are written by an underwriting team with decades of experience in specialty insurance products. All claims are handled in-house by our team of legal professionals who specialize in cyber and technology.

Coverage highlights

- Service credits included within the definition of payable damages if issued to settle a claim
- Breach of contract coverage expanded beyond standard technology liability existing in absence of a contract
- Contractual indemnity coverage for obligations owed to customers resulting from alleged wrongful acts
- Broad intellectual property infringement coverage extended to trade secret misappropriation, cybersquatting, improper deep-linking, and source-code license violations, as well as standard software copyright infringement
- Comprehensive negligence coverage, including improper installations, coding errors, data processing flaws, failed implementations, and network outages

Active risk monitoring

Our active risk monitoring services are included with every Tech E&O policy.

We conduct a sophisticated security scan of every business we quote to identify vulnerabilities, and continuously scan for cyber threats throughout the life of every policy. Cyber risk is dynamic and constantly evolving, and our security experts are always working to help keep policy-holders secure.
